

# The FPA Virtual Externship

Powered By

## GET THE EXPERIENCE YOU NEED FOR THE JOB YOU WANT

During these turbulent times, financial planning students entering the profession might find themselves without an in-person internship or mentorship opportunities.

To fill this need, the Financial Planning Association<sup>®</sup> (FPA<sup>®</sup>) created a virtual externship experience, which takes place entirely online over eight weeks.

The FPA Virtual Externship is perfect for financial planning students whose in-person internships were put on hold due to the pandemic, or for new to the profession planners who have recently lost their job, want to explore a career change or want to dive deeper into the art and practice of financial planning.

## WHAT YOU'LL LEARN

FPA Virtual Externship attendees will receive in-depth and expert training in:

- Investment Planning
- Insurance and Risk Management Planning
- Client Communication & Care
- Cash Flow Planning
- Student Loan Planning and College Planning
- Retirement Planning
- Tax Planning
- Estate Planning

This one-of-a-kind virtual externship offers financial planning students and CFP<sup>®</sup> Candidates 160 hours toward CFP Board's experience requirements and will give you insights into the practice and planning philosophies of multiple firms.

## SIGN ME UP!

The FPA Virtual Externship Program is FREE for FPA Members. Visit [fpaexternship.org](https://fpaexternship.org) to get started.
